

Syrina Vasquez

“As a Latina, being on the board of the Latino Leadership Council (LLC) is an honor and a privilege. The LLC has a strong mission and values, and they work tirelessly to improve the health and wellbeing of the Latino community. I’m proud to be part of this organization and the opportunity to contribute in any way to the LLC’s community impact is an honor.”

Syrina graduated with her Master’s in Public Health in 2021, and currently works in Public Health as an Epidemiologist. Syrina has a passion for using data to inform action and improve community health and wellbeing. Syrina is the product of a bicultural family with her Father being Mexican and her Mother being East Indian. Her first experience with the LLC was in 2021, when she interacted with their Promotores at a public health vaccine clinic. There she witnessed how the strongly the LLC advocated and cared for the community. Fast forward to 2023, and Syrina was part of the first cohort of the LLC Leadership with Latinidad Program, where she was immersed in learning leadership skills and hearing the experiences of several LLC partners. After these experiences, Syrina was inspired and honored to have the opportunity to be part of the LLC.
